Sunny Bar Farm
Complete Dispersal Sale

of

Registered Polled Shorthorns

Tuesday, October 13th, 1959

Sale Commences at 1 p. m. C. S T.

Sale to be held at the farm, $\frac{1}{2}$ mile north, 2 miles east and $3\frac{1}{2}$ miles north of Vandura, Sask.

Directions from major towns are as follows:

South from Moosomin on No. 8 highway to the Moosomin-Kipling road, and then 16 miles west and $2\frac{1}{2}$ miles south;
15 miles south west of Wapella on the McQueen road
17 miles south on No. 9 highway from Whitewood, and 11 miles east on the Moosomin-Kipling road, and then south $2\frac{1}{2}$ miles.
 $\frac{3}{4}$ mile west on No. 16 from Wawota, and then 12 miles north.

Selling the entire herd comprised of:

1 Senior Herd Sire (imported from U. S. A.)

1 Junior Herd Sire (imported from U. S. A.)

6 yearling bulls

27 cows and their Spring Calves (selling separate)

14 two year old heifers

14 yearling heifers

T. B. Free Area — everything calfhood vaccinated for Bangs

**Representatives: E. R. Henderson, Canadian Shorthorn Association.
W. J. Bradley, The Westerner**

Sale conducted by:

Blacklock Auction Service, Box 1205, Saskatoon

Owner: Hugh J. Kidd. Vandura. Sask.

POLLED SHORTHORN DISPERSION

General Information

Sunny Bar Farm was one of the first to breed Polled Shorthorns in Western Canada. The first Polled bull was used in 1937. The herd bulls used since that time are listed with their pedigree on the next page. On the next following page you will find another of the Reference Sires, and the two Herd Sires that are selling. You will note that the last five herd sires have all been imported from the United States.

Sunny Bar Polled Shorthorns have been sold to breeders in Saskatchewan, Manitoba, Alberta and British Columbia. Many good herds have been established with Sunny Bar foundation stock. The herd is maintained and developed under very ordinary conditions, the cattle are sold in a natural condition right off grass, with the result that the selling prices have not been high. To the purchaser, however, they become a wonderful investment. When A. R. Tolton, Oak Lake, Man., dispersed his Fairholm herd last fall three of his top cows were bred by Hugh Kidd, Sunny Bar Farm. One of the cows with her bull calf sold for \$1,010; her three-year-old heifer sold for \$305 with her big bull calf being retained as a 4H calf; her two-year-old daughter brought 370; and her yearling topped the sale at \$750. This gave a return at this dispersal alone of \$2,435 from an investment of less than \$150 in 1953.

With practical farmers and commercial ranchers demanding breeding stock that do not require the time and loss of dehorning, breeders of Polled Shorthorns find themselves in an enviable position with their surplus cattle in good demand. With this herd selling in its entirety, there will be many opportunities to invest in foundation cattle that will yield returns like that indicated above. Sunny Bar Polled Shorthorns are certainly one of the fountainheads of the breed in Western Canada.

Health—T. B. Free Area —all are Calfhooed vaccinated for Bangs

GUARANTEE—In spite of the fact that this is a complete dispersal, and usually dispersals are sold without guarantee, all cattle are guaranteed breeders.

TERMS—Terms are cash, unless otherwise arranged, cheques will be accepted.

INSURANCE—E. R. Henderson, Saskatoon, will represent Lloyds of London Livestock Insurance, and all purchases may be insured to full value against death from any cause, including transportation accidents.

LUNCH will be available at the farm at noon.

SHIPPING—Cattle will be loaded CNR or CPR free of charge and local trucks can be arranged. Cattle may be left at the farm for a reasonable length of time after the sale. Health Certificates and documents required for shipment to the United States or to special areas will be provided. All cattle must be settled for at the time of the sale, unless otherwise arranged, and are left at purchaser's risk.
